Sprint 2 Plan
Quickmeet
Ruined City Bit Switchers
April 28th, 2017

Goal
Optimize the User Experience

Task listing, organized by user story

User Story 4: As a user, I want to be able to access my group calendars and set up meeting times. - 29
    Tasks:
- Generate group calendar usernames - 3
- Add users into group calendar using their unique id - 5
- Display possible meeting times on the calendar - 8
- Display different colors for each user - 5
- Display on user's page which groups they are in - 8
- Share tables across connection - 20

User Story 5: As as user, I want to be able to generate a neat, shareable pdf document of calendars to be shared physically. -18
    Tasks:
- Research requirements for implementing this functionality - 13
- Export the group calendar to pdf - 5

User Story 6: As a user, I want to be able to manually input times for my calendar. - 6
    Tasks:
- Create input interface to add times - 5
- Push times to the database - 1

User Story 7: As a user, I want to be able to learn how to use the calendar. -26
    Tasks:
- Create and format a help page - 8
- Add a description of how to use the calendar - 5
- Create a little popup window (alert) that lists clear instructions on how to use the site - 13
